10 year anniversary – Amyloidosis Network Zurich

# Amyloidose – Past, Present and Visions for the Future

with Music and Apéro

Ente Ospedaliero Cantonale

# Welcome

## Dear Colleagues

For 10 years we have been treating patients with amyloidosis within our network which consists of USZ, KSGR, EOC and KSSG.

We look back on an eventful time: the introduction and approval of new drugs for different types of amyloidosis have changed the prognosis of our patients for the better over the last decade. Networking with colleagues from other hospitals in Switzerland and internationally has led to a standardization in the evaluation and treatment of our amyloidosis patients. Collaborations have been established with the aim to better understand these rare diseases and to have even better treatment options available in the future.

We are very pleased to celebrate these last 10 years with you and distinguished guests at our anniversary symposium and look forward to an interactive and stimulating afternoon.

Kind regards

Dr. Rahel Schwotzer

Prof. Dr. Andreas Flammer

# Program

Chair: M. Théaudin, CHUV; T. Fehr KSGR

13.15 h

## Opening Ceremony/Music

B. Gerber, EOC; A. Flammer, USZ; R. Schwotzer, USZ

13.45 h

## History of amyloidosis –

### an overview and greetings from the president of the International Society of Amyloidosis (ISA)

S. Schönland, Universitätsklinikum Heidelberg D

14.15 h

## Research of protein folding disease – what do we need to know as clinicians

A. Aguzzi, USZ

14.45 h

## Why do we need amyloidosis centers – the role of a center of excellence

G. Palladini, Fondazione IRCCS Policlinico San Matteo Pavia I

## State of the art lectures

15.15 h

## Variant transthyretin amyloidosis (ATTRv)

K. Hahn, Charité Berlin D

15.45 h

## Coffee Break/Music

Chair: U. Hegenbart, Universitätsklinikum Heidelberg D; H. Seeger, KSB

16.15 h

## Wild-type transthyretin amyloidosis (ATTRwt)

G. Pölzl, Universitätsklinikum Innsbruck A

16.45 h

## Lightchain (AL) amyloidosis

M. Gertz, Mayo Clinic Rochester USA

17.15 h

## Discussing challenging cases from the network with the experts

Gerber, EOC; A. Flammer, USZ, R. Schwotzer, USZ

17.55 h

## Amyloidosis Network Zurich – past, present and visions for the future

R. Schwotzer, USZ; A. Flammer, USZ

18.15 h

Apéro
